Enrolment forms pack

MayaBela School OS · Print, fill, then type into the software

How to use

1. Print the form that matches the person: student, classroom teacher, or administrative staff.
2. Attach a 3 × 4 cm photo in the box. The same photo is uploaded when you register them.
3. The family or staff member fills the white sections. Starred (*) fields are required in MayaBela.
4. Do not write Student ID / Teacher ID / Staff ID on the paper first. The software creates them.
5. After you save the record, copy the ID, login, and temporary password into the yellow Office box.
6. Keep the paper in the student or staff file. The live record is the one in MayaBela.

Software screens these forms match:

- Student → Admin → Add Student
- Teacher → Admin → Add Teacher
- Administrative staff → Admin → Add Administration Staff (login account + roles)

Workers with no app login (cleaners, guards on HR roster only) are not this form —
HR → Add staff record issues EMP-#### and does not create a password.
