MAJO BRIDGE TECHNOLOGIES AND EVENTS PLC

MaJo e-School Bridge (MayaBela) · MB-ESB-001 · v1.0.6

Supporting evidence for INSA / Hibir asset registration

Supporting evidence index

What else to attach so reviewers can see the CSMS is operating — not only the five required PDFs

Product CSMS result to show: PASS · Mature 86/100 · Guideline v1.0 evaluation R3 · zero Major NCs on the submitted TOE

The five required Hibir fields (SRS, SDD, TDD, User Guide, Security Documentation) plus the official letter and tester pack are already the core file. The items below add **evidence** that people, process, and technology exist. They do not invent a pentest letter or a gazetted certificate.

1. Attach these from this pack (highest value)

Priority	File	Why it helps a pass
1	**INSA_CSMS_Audit_Evaluation_Report_MayaBela.pdf**	The scored evaluation itself (R3, Mature 86/100). Without this, 86/100 is only a sentence in MB-SEC-001.
2	**INSA_CSMS_FollowUp_Evaluation_MayaBela.pdf**	Shows Majors were closed and the score moved 38 → 64 → 86. Reviewers like a trail, not a single stamp.
3	CSMS policy + RACI + CSO appointment (in the ZIP)	Guideline people/process: named officer, adopted policy, accountability.
4	Internal evaluation + restore drill + tabletop records	Guideline §9 substantive testing / CAAT / BCM drill — without taking schools offline.
5	Risk register, IRP, HR acceptable use, KEY, DPIA, DPA	Shows living CSMS, not only product code.
6	MODULE_PERMISSION_MATRIX.md	Need-to-know map testers and auditors can check against the app.

Upload the ZIP **INSA_Supporting_Evidence_Pack_MaJo_eSchool_Bridge.zip** once (Hibir allows ZIP). If the portal wants a PDF in a remaining slot, upload the evaluation report PDF (priority 1) by itself as well.

2. Attach from your company file (we cannot create these)

Document	Why
Business / trade registration of Majo Bridge Technologies and Events PLC	Proves the legal person filing the asset.
TIN / tax registration	Same — organisation identity.
National ID / passport of the General Manager (Nebil Ahmed)	Signatory of MB-INSA-LTR-2026-001.

3. Do not attach (would not help this filing)

- A CMCSRS v2.0 “operator FAIL” report — different standard; not this asset’s product CSMS score.
- Production service-role key, platform PIN, or a paying school’s Admin password.

- A pentest certificate we do not have. Internal CAAT is already in the ZIP; an external letter is still scheduled (R10).

This index is MB-EVD-001 · 10 November 2026, East Africa Time. Live schools were not mutated.
