COMPANION DOCUMENT
Technical Proposal MB-SJ-TECH-2026-11
61 numbered school modules (separate PDF)

THE ONLY FORMULA THIS OFFER USES — MONTHLY, RECURRING, BEFORE VAT

Monthly subscription (ETB, before VAT) = (total students × 70%) × chosen rate

1) Take St. Joseph's total enrolled students (A).
2) 30% of A is the **discount / off** — those students are not charged.
3) 70% of A is the **payable students** (B). Round to the nearest whole student.
4) Monthly payment before VAT = B × the pack rate (ETB 150 / 200 / 300 per payable student **per month**).
These pack rates are the **lowest possible price** in this offer. VAT is added later on the tax invoice if legally due. Besrate Gabriel School in Dire Dawa is **100% free of cost** — do not put its students in (A).

1. How to read this proposal

This paper is the commercial offer. St. Joseph School pays a monthly subscription. **Besrate Gabriel School (Dire Dawa) is 100% free of cost.** Software detail is in **Technical Proposal MB-SJ-TECH-2026-11**. Management needs two decisions: (1) how many modules, (2) St. Joseph's total enrolled student count.

2. Module packs and lowest monthly rates (before VAT)
3. The 30% off / 70% payable rule
4. Worked examples (for planning)
5. Official worksheet (St. Joseph roll)

6. Dire Dawa — 100% free of cost
7. What the monthly subscription includes
8. Recurring payment, VAT, and validity
9. Numbered module list (for pack choice)
10. Signatures

2. Module packs and lowest monthly rates (before VAT)

Rates are **per payable student per month**, in Ethiopian Birr, **before VAT**. They are the **lowest possible price** given in this offer — not a list price with a later cut. This is a subscription. It is not a one-time licence. Rates are not per teacher and not per login.

STARTER PACK

≤ 20 modules

150

ETB / payable student / month · before VAT · lowest price

- Choose any 1–20 desks from the 61
- Typical: SIS + attendance + markbook + parents

STANDARD PACK

20–40 modules

200

ETB / payable student / month · before VAT · lowest price

- Choose 20 to 40 desks
- Typical: academics + students + finance + HR

FULL SCHOOL OS

All 61 modules

300

ETB / payable student / month · before VAT · lowest price

- Complete catalogue in the technical proposal
- 41–60 desks are billed at this full rate

Pack	Modules switched on	Rate (ETB)	Unit
Starter	1 to 20	150	Per payable student / month — recurring — before VAT — lowest price
Standard	20 to 40	200	Per payable student / month — recurring — before VAT — lowest price
Full	All 61 (also 41–60)	300	Per payable student / month — recurring — before VAT — lowest price

Boundary rule for management. Exactly 20 modules may be taken as Starter (ETB 150) or Standard (ETB 200); the school picks the pack on the order form. Exactly 40 modules is Standard. The full catalogue of 61 is Full (ETB 300). Chrome screens (personal Profile and Logout) are not counted in the 61 and are never billed. All three rates are the floor price of this offer, quoted **before VAT**.

3. The 30% off / 70% payable rule (St. Joseph)

From St. Joseph's **total enrolled students**, this offer takes **30% off**. That 30% is a discount — those students are not charged. The remaining **70%** are the **payable students**. Every enrolled child may still use the system; the 30% is a commercial discount, not a login cap. Do not add Dire Dawa students into (A). Dire Dawa is 100% free (Section 6).

Step	What to write	Example (St. Joseph 1,000 students, full pack)

1	Total students (A)	1,000
2	Discount / off = A × 30%	1,000 × 30% = 300 students not charged
3	Payable students (B) = A × 70%	1,000 × 70% = 700
4	Choose monthly rate before VAT (C)	ETB 300 (all 61 modules — lowest full-pack price)
5	B × C = monthly subscription before VAT	700 × 300 = **ETB 210,000 per month, before VAT**

Monthly subscription before VAT (ETB) = (St. Joseph total students × 70%) × chosen monthly rate

Check for the board: on a 1,000-student roll at the full pack, 210,000 ÷ 1,000 = **ETB 210 per enrolled student per month, before VAT**. The invoice line is still B × C. VAT is added on the tax invoice if Ethiopian law requires it. This amount is due every month for as long as the school stays subscribed.

4. Worked examples (planning only, before VAT)

These rows help the board budget before the official St. Joseph census is attached. They are not an invoice. Amounts are **ETB per month, before VAT**. Payable students = 70% of enrolled.

Enrolled students	30% off	Payable (70%)	Starter 150	Standard 200	Full 300
400	120	280	42,000	56,000	84,000
500	150	350	52,500	70,000	105,000
600	180	420	63,000	84,000	126,000
800	240	560	84,000	112,000	168,000
1,000	300	700	105,000	140,000	210,000
1,200	360	840	126,000	168,000	252,000
1,500	450	1,050	157,500	210,000	315,000
2,000	600	1,400	210,000	280,000	420,000

ETB per month, before VAT, St. Joseph only, recurring. Dire Dawa is 100% free and is not in these rows.

One-line illustration (not the school's census)

If St. Joseph had 1,000 students and chose all 61 modules:

Line	Figure
Total students (A)	1,000
30% off (not charged)	300
Payable students (B) = A × 70%	700
Lowest full-pack rate per month, before VAT (C)	300
Monthly subscription B × C, before VAT	**ETB 210,000 / month**
Besrate Gabriel School, Dire Dawa	**ETB 0 — 100% free of cost**

5. Official worksheet — St. Joseph student count

Leave the empty cells until the registrar confirms the St. Joseph roll. Do not write Dire Dawa numbers here.

Item	Write here
School	St. Joseph School
Total students (A)	
30% off (not charged) = A × 30%	
Payable students (B) = A × 70%	
Chosen pack (Starter / Standard / Full)	
Lowest monthly rate before VAT (C) — 150 / 200 / 300	
Monthly subscription = B × C (ETB / month, recurring, before VAT)	

Census date: _____ Prepared by (registrar): _____ Checked by (finance): _____

6. Dire Dawa — 100% free of cost

Besrate Gabriel School (Dire Dawa city branch) is 100% free of cost. No monthly subscription. No installation fee. No module charge. No student-count charge. MaJo Bridge Technologies and Events provides the same product as a social contribution. Do not add Dire Dawa students into St. Joseph's payable (B).

Item	St. Joseph School	Besrate Gabriel School, Dire Dawa
Monthly subscription	70% of students × pack rate, before VAT	**ETB 0 — 100% free**
30% discount	Yes — 30% of St. Joseph roll is off	Not used — the whole campus is free
Installation / go-live	Covered with the paying campus	**ETB 0 — 100% free**
Modules in use	Chosen pack	Same product, no charge

7. What the monthly subscription includes — and what it does not

Included in the monthly subscription	Not included
Use of the chosen modules on web and Android; school data isolation; product updates to those modules; support Mon–Sat 09:00–18:00 EAT; English, Amharic, Afaan Oromo.	Devices, campus internet, and CCTV cameras; custom software outside the 61-module list; government EMIS filing on behalf of the school; VAT or withholding if legally due (stated on the tax invoice); a second accounting package.

The school may move pack (Starter → Standard → Full) on a later month at the new monthly rate on the then-current St. Joseph roll. Reducing a pack is allowed from the next billing month. Unused days in a paid month are not refunded.

8. Recurring payment, VAT, and validity

Term	Offer
Currency	Ethiopian Birr (ETB)
Quote basis	**Before VAT.** The 150 / 200 / 300 rates and all tables in this paper are exclusive of VAT
VAT on invoice	Added on the tax invoice if Ethiopian law requires it. Not mixed into the pack rate
Validity	90 days from 7 November 2026
Billing	Monthly subscription, recurring
Amount each month (before VAT)	(St. Joseph total students × 70%) × chosen pack rate
30% off	Discount on St. Joseph's roll — those students are not charged
Lowest price	The pack rates in Section 2 are the lowest possible price of this offer
First payment	On contract signing, using the signed St. Joseph census worksheet, before VAT
Following payments	The same formula, due each month while the school stays subscribed
Dire Dawa	**100% free of cost** — ETB 0 every month, no VAT line for that campus

9. Numbered module list — for pack choice

Tick the desks the school wants. Count the ticks. 1–20 = Starter (150). 20–40 = Standard (200). 61 (or 41–60) = Full (300). Full descriptions are in the technical proposal.
